

TRADITIONAL CAMERAS

ADVANCED DETECTION

Part Number: GS-3-TCA

The GRIDSMART Advanced Detection Traditional Camera (rectilinear camera) is used for advanced detection applications with high-speed approaches from 200 to 400 feet from the camera.

STOPBAR DETECTION

Part Number: GS-3-TCS

The GRIDSMART Stopbar Detection Traditional Camera (rectilinear camera) is used for focused detection on stopbar approaches from 75 to 160 feet from the camera.

SPECIFICATIONS

Connectivity: Single CAT5e Cable

Dimensions: 15.9" x 6.4" x 5.6"
(40.4 x 16.25 x 14.2 cm)

Weight: 6.8 lbs
(3 kg)

Power: Power over Ethernet (PoE)

Consumption: 5W nominal
15W with active camera heaters

Environmental: -29°F to 165°F (-34°C to 74°C)
0 to 95% non-condensing

Material: Aluminum

Image Format: MJPEG color
