# GRIDSMART.

SMARTCONNECT TOOLKIT

Part Number: GS-3-SCT

Simplify your fiber terminations at the cabinet and in the bucket with the SMARTConnect Toolkit. Conveniently packed in a rugged carrying case, the SMARTConnect Toolkit provides everything needed for a precise fiber termination. The custom design connects directly onto the bucket for a safe and sturdy work bench above the intersection. The SMARTConnect Toolkit can also be used at the cabinet whether placed on the ground, in the back of your truck, or on a table.
